

# CAPTAIN ATOM, VOL. 2: GENESIS

Charged by nuclear energy, possessing vast molecular powers, Captain Atom has the potential to be a literal god among men - a hero without limits. This second volume delves into Nathaniel Adams' life as Captain Atom and begins to answer many of the questions surrounding his origin: Why did Nathaniel Adam sign up for Megala's experiment? How did he become Captain Atom? Do his powers have any limits? Nate also struggles to relate to those around him as he searches for a way...

## Reader's Opinions

I wasn't expecting much when I started, but these two volumes of Captain Atom have won me over. My only problem is that the ending felt too open to me. I'm happy to hear that there's more Captain Atom coming my way though. Can't wait to read The Fall and Rise of Captain Atom. Hope it doesn't disappoint.

Fun art.
