## Reader's Opinions

This is the first book I've read in this series.Ok I've read similar in this romance/erotic fantasy genre but only when I've been really bored.This book is strong on emotions but weak on imagery. Some of the sex scenes just can't be visualised without my brain going 'how on earth is that possible there would be at least 2 feet of space...

This was the first I read of Raven's books. It was a really good read, nice plot and steamy spots. If you like the centaur theme this is a must read. Dark Stallion has a separate plot and doesn't give much spoilers for Unbridled, so you can read them in any order. I hope Raven will come out with more in this series.
